Suspension bridge Chenarlier

Itinerary

From the main Troistorrents road, before the bridge that crosses the Vièze de Morgins, take a downhill path towards Vers le Pont to reach the river (La Vièze). The route crosses the river by a stone bridge and goes up towards the Chenarlier road. Once on the road go up towards the bottom of the valley for 300 meters until the junction of Chemin de la Combe. Follow this path towards the river to reach the Chenarlier footbridge. After crossing the footbridge, reach Troistorrents and the starting point.

Practical information

This footbridge is reachable by car. It connects Troitorrents and the hamlet opposite and saves residents a long detour on foot or by vehicle.
