Gorges du Dailley

Departure

From the car park at the entrance to the village of Les Granges, follow the road upstream from the car park or cross the village to the starting point of the hike.

Itinerary

After the village of Les Granges, the route begins with an easy flat road to follow for about 1 km to the start of the stairs that go up along the gorges. The climb is spectacular and reaches the hamlet of Van d'en Bas. For the return, follow the road downstream from the Auberge du Vallon de Van until the indication Les Granges. After a short climb of 100 meters in altitude, the route descends on a good path to the starting point. During the descent, the path crosses the motorable road for 250 meters and a forest road a little lower. Always follow the «hiking path» signs.

Practical information

On weekends in summer, this hike is very busy and the car park may be full for people who arrive late. This hike requires a good physical condition and not suffer from vertigo.
