Triftbrücke

Departure

To reach the Triftbrücke, from Innertkirchen in the Haslital, take the Susten Pass (Gadmertal) road for 8 km to reach the starting station of the Trifbahn cable car (already spectacular).

Itinerary

From the arrival station of the cable car follow Triftbrücke by a path for 3 km. After enjoying the spectacular emotions caused by crossing the bridge, it is possible to continue towards the Windegghütte (30 minutes) by a spectacular path (the aptly named Ketteliweg) equipped with chains in the form of a handrail. Once at the hut, there are two return options, either by the Familienweg (easy but longer), or by the Bosslistein (rather difficult descent, sure foot required) to reach the lower station of the Triftbahn cable car (pay attention to the timetables for the return)

Practical information

The Triftbrücke and the view of the Triftgletscher are spectacular. The path to the Trifthütte is closed. For people who are in good physical condition, it is worth taking the Ketteliweg and reaching the Windegghütte. Very nice little hut to enjoy very good cakes. For climbing enthusiasts, there are many climbing routes all around the cabin of all levels of difficulty, ideal for introducing children to climbing and spending a night in the hut.

To take the Triftbahn cable car, it is imperative to book for the ascent and descent.
